

**eM2**

## **e-Mobility That Thinks Outside the Box Truck**

The Freightliner eM2 delivers nimble performance and capability in the emissions-free package our customers want for urban settings. It's the result of our commitment to develop world-class, all-electric commercial vehicles that will reduce emissions and improve our customers' total cost of ownership (TCO).

As part of Daimler Trucks North America, Freightliner is able to utilize the global engineering expertise of Daimler to bring this practical, game-changing technology to market. Following a highly collaborative process with our customers, production of the eM2 is set to begin in late 2022. It will bring a clean commercial transportation solution to reality that will have a positive impact on our customers and the industry as a whole.

## Freightliner eM2

Emissions-free and highly maneuverable, the eM2 is the rare welcome addition to a city's congested streets.

- Based on one of North America's most in-demand medium-duty truck designs
- Ideal for local distribution, pickup and delivery, food and beverage delivery and last-mile logistics applications
- Routes under 230 miles
- Warehouse to final destination
- Start of production is scheduled for late 2022 at our Portland Truck Manufacturing Plant which is a zero-waste-to-landfill facility and will be powered by 100% clean energy
- Quiet, comfortable and easy to drive

|                 |                 |
|-----------------|-----------------|
| HORSEPOWER      | 300 hp (224 kW) |
| MILE RANGE      | 230             |
| USABLE CAPACITY | Up to 315 kWh   |
| RECHARGE        | 80% in 60 min.  |
| GVWR            | 26K to 33K lbs. |

### RIGHT-SIZED INNOVATION

The eM2 is large enough for regular deliveries, small enough to get in and out easily, and provides the power, torque, range and charging capabilities you need. It's an ideal vehicle where dedicated, repeatable routes are the norm, as well as for pickup and delivery. This is the daily driver that drives your business.

### A PROVEN MANUFACTURER

At Freightliner, cutting-edge design, engineering and manufacturing is nothing new. We apply the same processes, skill and efficiencies in building our electric trucks as we do in producing our industry-leading heavy- and medium-duty commercial trucks in volume. With the largest dealer and service network in North America, we offer unparalleled access to parts, support and factory-trained technicians.
