

## **Vehicle Eligibility Application Submittal Instructions for Original Vehicle Manufacturers**

Updated 4/6/21

Applications for manufacturers to have vehicles or engines approved by the California Air Resources Board (CARB) as eligible for the Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project (HVIP) should be e-mailed to: [patrick.chen@arb.ca.gov](mailto:patrick.chen@arb.ca.gov).

Questions regarding submittal of the vehicle eligibility application or application requirements should be directed to Patrick at the above e-mail address.

The timeline from when a complete and accurate eligibility application is received by CARB to when the vehicle is available in the HVIP Eligible Vehicles Catalog and Voucher Processing Center (VPC) is an average of 75 days. This includes 60 days for CARB's review and 15 days for HVIP staff to update the Catalog and VPC.

More information about vehicle eligibility is available at [www.californiahvip.org/sellers](http://www.californiahvip.org/sellers)
