

**MACK**®

# The future of medium-duty, powered by Mack.

Lower total cost of ownership.

Over three years, MD Electric can have a lower total cost of ownership\* than diesel.

## **MACK MD Electric**

Meet the Mack MD Electric. Available in Class 6 and 7 configurations, it's an all-electric medium-duty truck with all the capabilities and durability you expect from a Mack. With a focus on driver comfort and productivity, step-by-step integration and the desire to lower the total cost of ownership over three years, MD Electric combines everything you need to bring eMobility to your fleet.

**MD ELECTRIC**

## Key Features

MD Electric standard Class 6 GVWR (25,995) with option for Class 7 GVWR (33,000)

8mm frame rails rated at 120,000 PSI for higher frame strength

34-inch assembled frame width for easy body installation

MD Electric BEV (battery electric vehicle) with two battery options – 150 or 240 kWh capacity

Full-width aluminum grated steps for easy entry and egress, horizontally offset for visibility

Flat back-of-cab and clear frame platform for easy body installation

Five wheelbase options for typical vans from 18–26 feet long\*

Steel, white powder coated disc wheels (standard), aluminum wheels (optional)

Mack cab, standard with air ride suspension

Mack Maxlite AirRide rear suspension (optional)

Tires 11R22.5 (standard), 255/70R22.5 Low Profile tires

Driver air suspension seat, two-person bench seat, both fitted with Modura cloth upholstery

\*206 inch wheelbase restricted to two battery configuration (150 mile estimated range)

### Comfortable Interiors

The Mack MD Electric brings heavy-duty levels of driver comfort and functionality to medium-duty trucks, to keep drivers comfortable and safe all day. Tilt/telescoping steering column, air suspension driver seat and all controls are within easy reach keep drivers in control.

### All Day Uptime

MD Electric's customers have access to Mack's industry-leading Uptime Services. Mack's ASIST platform streamlines and shares service communications among the customer, dealer and Mack's 24/7 Uptime Center.

SS-OX-MDE-1023

<sup>1</sup>Based on comparably equipped Class 6 MD and MD Electric models over a 36 month period financed with Mack Financial Lease (diesel model) and Mack Electrifi Subscription (MD Electric model) with 30,000 mile/year mileage allocation. MD Electric calculations include Commercial Clean Vehicle Credit. Energy estimates based on national average of diesel and kWh as of 7/31/23 provided by US Energy Information Administration. Your actual cost of owning a particular vehicle will vary depending on many factors, including actual topography, driver conditions and experience, fuel costs and quality, varying load weights, just to name a few, all of which can greatly affect the actual performance and cost of operating any vehicle.

The Mack Electrifi Subscription program is a usage-based lease for qualified customers offered by Mack Financial Services (MFS), a division of VFS US, LLC. Finance and lease offers and solutions are subject to credit review and underwriting, and approvals will state transaction terms and conditions. All leased trucks are delivered through authorized Mack dealers, and Ultra Service Contract is offered by Mack Trucks. This transaction is not a "Vehicle Subscription" as defined by applicable law. MFS reserves the right to amend or cancel this offering at any time without notice. Offer available in the U.S. only. Eligible on new Mack MD Electric models only.
